DETAILED ACTION

Allowable Subject Matter

Claims 1-37 are allowed.

The following is an examiner's statement of reasons for allowance: prior art does not teach nor render obvious a power amplifier that has, in combination with other limitations, a variable capacitor having a variable capacitance which in combination with the output capacitance results in an adjusted output capacitance, wherein the variable capacitor is controlled so that the adjusted output capacitance is substantially constant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patents # 4,685,041, # 6,380,802 B1, # 5,373,434, JP 357010536A contain some limitations of the claimed invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patricia T Nguyen whose telephone number is (703) 308-1927. The examiner can normally be reached on 6:30 AM - 5:00 PM.
